WELCOME TO CHEMPOL ADDITIVES

At UK-based Chempol Additives, we are committed to providing you with innovative, high-quality additive solutions designed to improve performance and efficiency in a variety of applications. Chempol offers a wide range of products, precision-crafted and expertly crafted to meet your specific needs. Our dedication to excellence ensures that every solution we provide is backed by rigorous quality control and cutting-edge technology.

We invite you to explore our offering and see how Chempol additives can contribute to your success. If you have any questions or need further assistance, our team of experts is here to help.

Welcome to a world of superior additives and exceptional service.

CPL01 HYPER CLEAN PARTS AND BRAKE CLEANER

Description

CHEMPOL HYPER CLEAN PARTS & BRAKE CLEANER effectively dissolves and removes oil, grease, tar, brake fluid, and dirt without leaving any residue. It is safe for use on rubber, plastic, and painted surfaces.

Product Application

Suitable for use on brakes, automotive parts, industrial parts, and tools.

Features & Benefits

- The fast-drying formula leaves no residue
- Safe for use on plastic, rubber, and metal surfaces
- Easy to use: simply spray on and let dry

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

ITEM NO: CPL01

SPC 600ML

CPL04 CONTACT CLEANER

Description

CHEMPOL CONTACT CLEANER is a unique cleaning solvent that is safe for plastics. It is scientifically formulated, proven effective, and evaporates completely without leaving residue. It is non-corrosive and contains no lubricants, making it ideal for use on sensitive electronics.

Features & Benefits

- Fast Evaporation. Minimizes downtime associated with cleaning equipment in place.
- Residue Free. Prevents harmful buildup and eliminates the need for rinsing or wiping

Application

CHEMPOL CONTACT CLEANER is recommended for cleaning electrical and electronic components such as relays, switches, circuit breakers, alarm systems, printed circuit boards, connectors, generators, and test equipment.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL06 MAX FLOW FUEL INJECTOR CLEANER

Description

CHEMPOL MAX FLOW FUEL INJECTOR CLEANER is a powerful yet gentle product designed to clean the vital components of your engine's fuel system. It effectively removes harmful carbon buildup from fuel injectors, combustion chambers, intake valves, and exhaust systems.

Application

This product is suitable for use in all gasoline-powered vehicles, including those with turbochargers or superchargers.

Features & Benefits

- Removes carbon deposits from fuel injectors
- Cleans the combustion chamber for optimal performance
- Restores lost engine power caused by dirty injectors
- Environmentally friendly - contains no harmful dyes or alcohol
- Effectively cleans the entire fuel system
- Improves overall engine performance

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL07 LEAK FIX RADIATOR LEAK STOP

Description

CHEMPOL LEAK FIX RADIATOR LEAK STOP is a product designed to seal small leaks in your car's cooling system. It can repair leaks in the radiator, heater core, engine block, head gasket, and other components. This product helps prevent overheating by stopping coolant loss and reducing the need to frequently refill the coolant.

Application

CHEMPOL LEAK FIX RADIATOR LEAK STOP can be used in various types of vehicles, including those with aluminum, stainless steel, or cast iron engines. It works on all types of coolant.

Features & Benefits

- Seals leaks in the cooling system
- Prevents coolant loss
- Reduces engine overheating
- Easy to use - no flushing required
- Compatible with all types of coolant
- Protects against corrosion

Usage Directions

- Allow the engine and cooling system to cool completely.
- Shake the product well before use.
- Add 8 ounces of the product to the radiator and reservoir.
- Fill the radiator and reservoir with coolant.
- Start the engine, turn on the heater, and let the car idle for 15 minutes.
- Drive the car for an additional 45 minutes.
- Let the car cool down and check for leaks. If the leak persists, you can add another 8 ounces of the product.
- If the leak continues after the second application, you will need to make mechanical repairs.
- For best results, flush the cooling system to remove rust, dirt, and sludge before using the product.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL08 RADIANT CLEAN RADIATOR FLUSH

Description

CHEMPOL RADIANT CLEAN RADIATOR FLUSH is a cleaning solution designed to remove harmful buildup in your car's cooling system. It clears blockages that can cause the engine to overheat. It's recommended that this product be used before replacing the coolant.

Application

This product is safe for all types of cooling systems, including those made of aluminum. It won't damage rubber hoses or other parts of your engine.

Features & Benefits

- Removes blockages in the cooling system
- Reduces the risk of engine overheating
- Maintains optimal cooling system performance

Usage Directions

- Shake the bottle well before use.
- Pour the entire contents of the bottle into the radiator.
- Run the car for approximately 30 minutes.
- Once the engine has cooled down, drain the radiator.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL09 AC VENT AC SYSTEM CLEANER

Description

Chempol AC VENT AC SYSTEM CLEANER is a specialized product designed to purify the air in your air conditioning system. It effectively eliminates harmful bacteria and dust without the need for water rinsing.

Application

Switch ventilation off. Remove the cabin filter and insert the probe approx. 30 cm through the now exposed air inlet opening. Spray 2/3 of the product directly on the evaporator. Insert the probe into the upper ventilation openings and empty the product. It is also possible to apply the product through the holes for condensate drain (drainage). Leave to act for 20 min, then dry the A/C System by turning the heater to the maximum temperature. May be harmful if inhaled. Replace the dust or pollen filter after the treatment.

Features & Benefits

- Improves the quality of indoor air you breathe in
- Boosts the performance of your air conditioner
- Kills up to 99.9999% of harmful germs in just one minute
- Easy to use with no water rinsing required
- Safe for the air conditioner's components
- Effective against a wide range of harmful bacteria

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL11 TIRE GLOSS FOAM CLEANER

Description

CHEMPOL TIRE GLOSS FOAM CLEANER is a powerful yet gentle cleaning product designed to restore shine to your wheels and tires. It effectively removes dirt and dust from tires.

Features & Benefits

- Easy to use on all wheel and tire types
- Quickly cleans and restores shine
- Safe for all wheel finishes
- Effectively removes stubborn dirt and grime

Usage Directions

- Ensure your wheels and tyres are cool to the touch.
- Apply the foam cleaner generously to the wheels.
- Let the foam sit for about 30 seconds.
- Rinse off the cleaner with water.
- For a perfect finish, dry the tyres with a clean cloth.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

SPC 650ML

CPL12 ENGINE REVIVE ENGINE DEGREASER

Description

CHEMPOL ENGINE REVIVE ENGINE DEGREASER is a powerful yet gentle cleaner designed to remove dirt, grease, and grime from your engine compartment. It's safe to use on most engine parts, including rubber and plastic components.

Features & Benefits

- Quickly and effectively removes dirt and grease
- Easy to use - simply spray and rinse
- Safe for most engine components
- Leaves your engine compartment clean and fresh
- Convenient aerosol can for easy application

By using CHEMPOL ENGINE REVIVE ENGINE DEGREASER, you can quickly and easily restore your engine compartment to its original condition.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL18 OCTANE PLUS OCTANE BOOSTER

Description

CHEMPOL OCTANE PLUS OCTANE BOOSTER is a fuel additive designed to improve your engine's performance by increasing its octane rating. It helps prevent engine knocking (pinging) and can enhance power output.

Features & Benefits

- Increases engine power and performance
- Prevents engine crashing
- Improves fuel combustion efficiency
- Reduces harmful emissions
- Suitable for all types of gasoline engines

Application

CHEMPOL OCTANE PLUS OCTANE BOOSTER is easy to use. Simply add the recommended amount to your fuel tank. The specific amount depends on the desired octane increase and the size of your fuel tank. This product is compatible with all types of gasoline, including those with or without lead.

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

ITEM NO: CPL18

SPC 300 ML

CPL21 CLEAR CARB CARBURETOR CLEANER

Description

CHEMPOL CLEAR CARB CARBURETOR CLEANER is a powerful formula designed to clean carburetor components without disassembly effectively. It removes dirt, gum, and varnish buildup, restoring optimal engine performance.

Features & Benefits

- Cleans carburetor internals and external surfaces
- Improves engine, acceleration, and fuel efficiency
- Removes harmful deposits
- Versatile cleaner for various engine components

Application

To use the CHEMPOL CLEAR CARB CARBURETOR CLEANER, remove the air filter and spray the cleaner into the carburetor. Allow the cleaner to evaporate before reinstalling the air filter. Start the engine and let it stay for a short period to clean out any remaining residue.

Caution:

Warning

Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

CPL22 DPF SWEEP DPF FOAM CLEANER

Description
CHEMPOL DPF SWEEP DPF FOAM CLEANER is a specialized product designed to clean and restore the performance of diesel particulate filters (DPF) without the need for removal. It helps to prevent DPF clogging and maintain optimal engine performance.

Features & Benefits

- Cleans and regenerates the DPF
- Improves engine performance and fuel efficiency
- Reduces harmful emissions
- Extends the life of the DPF

Application
The temperature of the particulate filter during cleaning should be less than 40 °C. Remove the temperature or pressure sensor. Insert the tube through the opening which has been made and empty in the direction of the particulate filter by using puffs in 5-10 second intervals. Wait approx. 15 minutes to allow the cleaner to take effect. After the sensor has been reinstalled, you or the workshop must initiate DPF regeneration as per the manufacturer's specifications.

Warning
Extremely flammable. Use with caution. Keep away from heat, sparks, open flames, and hot surfaces. Avoid use near electrical equipment or appliances that are in use. Keep out of reach of children.

SPC 500ML

CPL23 INNER GLOW COCKPIT CLEANER

Description
CHEMPOL INNER GLOW COCKPIT CLEANER is designed to protect the dash board from cracking and drying out. It has excellent cleaning properties and a pleasant smell. It forms a durable polymer layer of silicone which gives the surface excellent waterproof, antistatic and UV-resistant properties. This product can be used for the care of interior coverings made of synthetic material and plastic.

DANGER! Extremely flammable aerosol. Pressurized container: may burst if heated. Protect containers from direct sunlight and do not expose to temperatures above 50 ° C. Use only outdoors or in well-ventilated areas. Harmful if inhaled. Keep out of reach of children. Do not spray on an open flame or other ignition source. Dispose of contents / packaging in accordance with national regulations. Shelf life: 5 years from the date of production (see bottom).
